LINGTONG EXHIBITION SYSTEM CO., LTD.

L-GLS Showcase 灵格拉斯陈列柜

Introduction 产品简介

Showcases are widely used in shows, exhibitions and indoor decorations. With special style, new line design, outstanding quality, also the showcases can be combined with other exhibition system, which not only enhance the effective of the exhibits, but also can create a better environment for you business and living.

LINGTONG company launched the "L-GLS" showcase system. It consists of aluminum frames, glasses and knuckle joints, which with safety structure, easily assemble & disassemble. The showcases can be used for displaying art wares, gifts, handicrafts, treasures, jewellery books & brochures, etc.

Changeable style is the biggest peculiarity of "L-GLS", on this book, we just list some examples, that means, we can use the materials to create different style of the showcase as your requirement.

Modern & most eye-catching, if you put the goods in the showcases in the shop centers.

Dignity & costly, if you put the jewellery in the showcases in the jewellery stores.

In any exhibition centers, shop centers, stores, stalls, offices, bookstores, hotels, restaurants, and your home, you can put the "L-GLS" showcases to improve your promotion and your living quality.

陈列柜在商业展示及装饰陈列中的应用非常广泛。款式别致典雅、制作精良考究又能与陈列物品和谐溶为一体的陈列柜不仅提高了陈列物品价值，也会进一步烘托气氛，创造更好的商业和生活环境。

灵通公司适时推出了“灵格拉斯”系列陈列柜产品，它由玻璃、型材和接头组装而成，结构安全而且拆装非常方便。它适合工艺礼品、精小产品、贵重收藏品和文件资料等的展示和陈列。

造型富于变化是“灵格拉斯”陈列柜最大的特点，本册中所展示的陈列柜只是众多款式中具有代表性的几款。广大用户可根据实际需要设计出自己喜爱的造型。

在琳琅满目的大商场里，陈列柜和其中精致小巧的礼品相得益彰，可以使陈列的商品具有更强的吸引力，“灵格拉斯”陈列柜是“时尚”的代名词；

在雍容华贵的金店里，陈列柜与美仑美奂的高档饰品浑然相契，“灵格拉斯”陈列柜又是“高贵”的象征；

在你清新雅致的书房里，陈列柜与满溢墨香的书本浑然天成，更与点缀其间的古董和谐共生，“灵格拉斯”代表着智者的格调；

.....

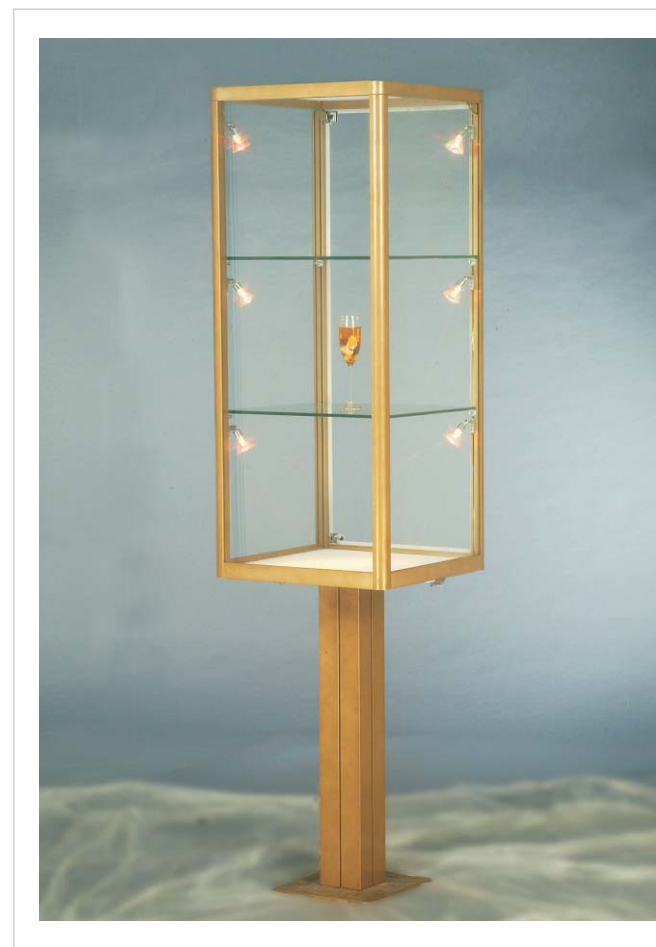

总之，不论在展览展示会，商业中心、专卖店、写字楼、书店、大堂广场、居家.....

“灵格拉斯”陈列柜都会更显出你非凡的品位。

TRANSPARENTA (I) I型单柜

Tempered safety glass 4mm
Small rectangular shape
Different levels available (less than 6 levels), glass shelves 4mm
Wooden base shelf with PVC film, 6mm
Plinth and lighting frame, sheet steel
Powder-coated light grey, RAL7035
If you choose lighting frame, with lighting: 2 flush integral spot lights, 12V/20W, with transformer, ready for installation recommended maximum dead load approx, 20 kg(45 lbs)/shelf

小矩形结构
A=720mm
B=360mm

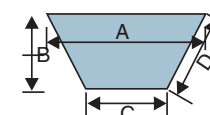

TRANSPARENTA (II) II型单柜

Tempered safety glass 4mm
Trapezoidal shape
Different levels available (less than 6 levels), glass shelves 4mm
Wooden base shelf with PVC film, 6mm
Plinth and lighting frame, sheet steel
Powder-coated light grey, RAL7035
If you choose lighting frame, with lighting: 2 flush integral spot lights, 12V/20W, with transformer, ready for installation recommended maximum dead load approx, 20 kg(45 lbs)/shelf

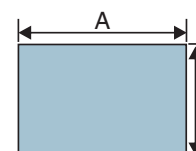

梯形结构
A=720mm B=312mm
C=360mm D=360mm

TRANSPARENTA (III) III型单柜

Tempered safety glass 4mm
Big rectangular shape
Different levels available (less than 6 levels), glass shelves 4mm
Wooden base shelf with PVC film, 6mm
Plinth and lighting frame, sheet steel
Powder-coated light grey, RAL7035
If you choose lighting frame, with lighting: 2 flush integral spot lights, 12V/20W, with transformer, ready for installation recommended maximum dead load approx, 20 kg(45 lbs)/shelf

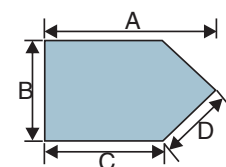

大矩形结构
A=720mm
B=509mm

Install direction (assemble without tools)
安装说明（徒手安装）

* Same way to assemble each level
重复每一层的安装

- ▲ Fit lighting frame
安放灯座
- ▲ Fit pre-wired lights into top panel, and then lay the panel in the plastic extrusion frame.
将已接好线的冷光灯装入顶板内，然后将玻璃搁板平放在塑料框内。
- ▲ Fit the plastic extrusion frame on the top of vertical infill panels & sliding doors.
将塑料框套在竖直的墙板和移门上。
- ▲ Fit vertical infill panels and sliding door in extrusion frame: vertical infill panels (1-4) in inner groove; sliding door (5) in outer groove.
按顺序将玻璃墙板（1-4）竖直插入塑料框的内槽；将移门（5）竖直插入在塑料框的外槽。
- ▲ Lay in horizontal glass infill panel.
放置水平玻璃搁板。
- ▲ Fit extrusion frame on top of vertical infill panels and sliding door.
将塑料框套在竖直的墙板和移门上。
- ▲ Fit vertical infill panels and sliding door in extrusion frame: vertical infill panels (1-4) in inner groove; sliding door (5) in outer groove.
按图示顺序将玻璃墙板（1-4）竖直插入塑料框的内槽；将移门（5）竖直插入在塑料框的外槽。
- ▲ Lay in timber base panel.
在塑料框内放入底板。
- ▲ Fit extrusion frame on top of skirting frame.
在底座顶部放入塑料框体。
- ▲ Lay out and adjust skirting frame.
平放底座并调整底座水平。
- ▲ Screw adjustable feet into skirting frame.
将调节脚旋入底座。

Please kindly note: Start assembling from the bottom of this page and work upwards!
请注意：先从底部安装，然后逐层向上！
